### PROFESSIONAL OVERVIEW

Ms. Kristin Gordon has over 20 years of experience in air quality consulting. Ms. Gordon has significant air permitting experience in over twenty-five states with emphasis on Title V, MACT, NSPS, and NSR. She has worked for a variety of industries including Chemical, Oil and Gas, Petroleum Refining, Medical Waste Incineration, Waste Combustion, Power Pharmaceutical, Pulp & Paper, Battery Manufacturing, Secondary Lead Smelting, Food and Beverage, Automotive, and Steel. Ms. Gordon has worked with MACT/NESHAP and NSPS standards for a variety of industries including Medical Waste Incineration, Waste Combustion Power, Chemical, Petroleum Refining, Pharmaceutical, Battery Manufacturing, and Secondary Lead Smelting.

By assisting facilities to evaluate and permit key expansion projects, Ms. Gordon's experience aligns with All4 LLC's approach to find innovative approaches to assist clients with permitting and facility upgrades and modifications. Ultimately, this provides our clients with competitive advantages in their respective industries.

During her professional experience, Ms. Gordon has served as Program Manager for several large environmental programs and projects for various industrial clients including the implementation of NSPS/MACT and Title V programs. These activities included program management, executive management coordination/training, agency interaction, public outreach, permit application development, permit negotiation, recordkeeping/reporting system implementation and management, environmental/operations personnel training, and auditing.
