### PROFESSIONAL OVERVIEW

*Mr. Brian Goldman is a Managing Consultant with over 9 years of experience as an environmental engineer working in air quality permitting and compliance. He has over 7 years of environmental consulting experience in the Southeast United States. Brian has supported clients in a variety of industries including chemical manufacturing, natural gas midstream and transmission, engineered stone and solid surface countertop production, expandable polystyrene production, and asphalt storage and oxidation. He has managed and provided technical expertise in many aspects of the air quality permitting process including preparing and managing the preparation of construction permit applications, major and minor permit modification applications, and Title V permit renewals.*

*Outside of air compliance, Brian is well-versed in Toxic Release Inventory (TRI) reporting and Tier II reporting. He is experienced with multiple state-level General Industrial Stormwater Permits and SWPPP preparation. He is also well versed in the development and ongoing maintenance of Spill Prevention Control and Countermeasure plans. He is a professional engineer licensed in the state of Georgia.*
