PROFESSIONAL OVERVIEW

Mr. Cody Fridley is a Technical Manager on ALL4's Water Technical Team, located in Northern Michigan, and brings over 7 years of experience in environmental engineering and consulting. Mr. Fridley's current focus is providing strategic industrial wastewater and stormwater permitting, compliance, and engineering support to industrial clients. Mr. Fridley's experience is extensive and includes providing this type of support for a wide range of industries, geographic locations, and with regulators at the Federal, State, and local levels. Some of the industries that Mr. Fridley has worked frequently with, in both the public and private sectors, includes pulp and paper, power generation and transmission, utilities, transportation, consumer products, aerospace, and automotive. Mr. Fridley has worked closely with the National Council for Air and Stream Improvement (NCASI) and supported projects with or presented at conferences hosted by the American Chemical Council (ACC) and Texas Chemistry Council (TCC).
