**KELLY DI STEFANO, CHMM, CSP**  
**MANAGING CONSULTANT**

**TRAINING WORKSHOPS**

Waste 101 Session 4: Universal Waste, Used Oil, and State Specific Waste, Co-Presenter: *This session will cover the different types of Universal Waste and how to manage them, general used oil management, and state nuances for state-specific waste. The information presented is important as these are commonly generated waste streams from our clients and understanding the management of these waste streams comes in handy during audits and/or site visits.*
