PROFESSIONAL OVERVIEW

Victor Chen is an accomplished environmental science professional with a strong specialization in stormwater management and regulatory compliance. He holds a Bachelor of Science in Environmental Science from the University of California, Los Angeles, and is a certified Qualified Industrial Stormwater Practitioner (QISP). Victor brings deep technical knowledge and hands-on experience to his current role as a Project Scientist at ALL4 CA, Inc.

Victor has extensive experience managing and implementing comprehensive stormwater compliance programs. He has led the development and execution of Stormwater Pollution Prevention Plans (SWPPPs), conducted rigorous stormwater sampling and inspections, and authored Level 1 and Level 2 Exceedance Response Action (ERA) Reports to address benchmark exceedances under California's Industrial General Permit (IGP). His work ensures clients remain compliant with state and federal water quality standards, often serving as the technical point of contact during audits and regulatory interactions.

In addition to stormwater, Victor's broader environmental expertise spans hazardous materials compliance, wastewater permitting, job safety analysis, emissions reporting, and Proposition 65. He routinely conducts environmental compliance audits and delivers gap analyses, regulatory interpretations, and detailed technical reports.

Motivated by environmental stewardship and operational excellence, Victor seeks to apply his skills and insights to create sustainable solutions that align with evolving regulatory landscapes and client needs.
