PROFESSIONAL OVERVIEW

Mr. Matthew Carideo is a Staff Engineer with experience in air quality permitting and compliance. Mr. Carideo has assisted with the preparation of Title V Revision and NSR Permit Applications, the development of Plan Approval Applications (PAA), emissions inventory development, and data validation/reconciliation for continuous emissions monitoring systems (CEMS). Mr. Carideo has participated in several project teams that support industries such as pulp and paper mills, cement manufacturing, lead-acid battery manufacturing, oil refineries, and natural gas transmission and production facilities.

Mr. Carideo is a member of the Air and Waste Management Association (AWMA) which is an organization to assist in professional development of its members. It facilitates the flow of information between environmental professionals through the process of networking and other events.
