PROFESSIONAL OVERVIEW

Mr. John P. Egan, one of the founding Principals of All4 LLC., possesses more than 45 years of air quality management consulting experience. He previously served as the company's Chief Technical Officer managing ALL4's Senior Consultants and overseeing ALL4's new business development as well as the company's RegTech Operations Group. Mr. Egan spent the first 12 years of his career with the Pennsylvania Department of Environmental Protection (PADEP) and was responsible for air permitting in the Southeast Region at the time he left the Agency. Since then he has worked as a consultant primarily focused on assisting industrial clients in understanding, and operating within, the complex federal and state air quality regulatory requirements.

Prior to forming All4 Inc., Mr. Egan was the Director of Air Quality Services at EarthRes Group, Inc. In this role, Mr. Egan provided his technical expertise and in-depth knowledge with air quality issues to aid clients in achieving and maintaining compliance while working to ensure their opportunity for increased productivity and growth. One of Mr. Egan's major strengths has been his ability to effectively understand client, regulatory and third-party requirements and to effectively communicate and coordinate with all parties to obtain stakeholder consensus on permitting and compliance issues.

Mr. Egan's specialized knowledge of regulations, along with his long-standing credibility with the regulatory agencies, enables him to effectively aid his clients with negotiation and the permitting process in a cost-effective manner.
