-

PROFESSIONAL OVERVIEW

Mark Robinson has more than 25 years of experience in environmental, health and safety (EHS) consulting. He regularly provides EHS regulatory compliance services for clients including compliance auditing, EHS program development, SPCC plans, and due diligence.

Mark supports a variety of industry markets, including chemical/pharmaceutical, high-tech/semiconductor, petroleum, non-metallic mining, pulp & paper, and manufacturing sectors. He has managed SPCC programs for several nationwide clients with over 1,300 plans completed.

Mark has completed the ISO14001 Lead Auditor Training Course and has assisted facilities with gap assessments, program implementation, and internal audits.
