**PROFESSIONAL OVERVIEW**

*As a Consulting Scientist, Jennifer Gomez has assisted in numerous industrial stormwater and industrial wastewater related projects within California. Jennifer began her environmental consulting career March 2018 at JE Compliance Services. Overtime she has had increased responsibility to assist clients in various industries (pulp and paper, cosmetics, food and beverage, metal finishing, and cement production) with their stormwater compliance program. Jennifer achieved her Qualified Industrial Stormwater Practitioner (QISP) certification December 2018. Individuals with a QISP certification have an in depth understanding of the California Stormwater General Permit. With the QISP certification, Jennifer has been able to assist stormwater Discharger's with Level 1 and Level 2 ERA evaluations and submissions, 303(d) assessments, and SWPPP pollutant source assessments. In addition, Jennifer's technical expertise includes knowledge in industrial wastewater report submission (self-monitoring reports, surcharges) and wastewater permit renewals and initial permit applications.*
