

LAWRENCE KHOURNSO STAFF SCIENTIST

CREENTIALS

- ◆ B.A., Environmental Science, Univeristy of California, Irvine, 2019
- ◆ Engineering Without Borders USA
- ◆ Southern California Coastal Water Research Project (SSCCWRP)

PROFESSIONAL EXPERIENCE

- ◆ 2021: All4 LLC., Rancho Cucamonga, CA – Staff Scientist
- ◆ 2020: JE Compliance Serivces, Rancho Cucamonga, CA – Associate I

TECHNICAL EXPERTISE

- | | |
|--------------------------------------|---|
| ✓ Title V inspections and permitting | ✓ RECLAIM reporting |
| ✓ Air Emission Inventories | ✓ Air quality permitting |
| ✓ Toxics Release Inventory (TRI) | ✓ Business Emergency Plans |
| ✓ NFPA Hazard classifications | ✓ Phase I Environmental Site Assessment |
| ✓ High Pile Storage Plans | ✓ Air quality inspections |
| ✓ California Fire Code | ✓ Greenhouse gas reporting |
| ✓ Greenhouse gas reporting | ✓ VOC and HAP recordkeeping |

PROFESSIONAL OVERVIEW

Lawrence graduated from the University of California, Irvine in June, 2019. During his time at UC Irvine, Lawrence focused on research in marine biogeography, regional coastal water quality monitoring under the Southern California Coastal Water Research Agency, and geographical information systems. One of his research projects included creating a risk assessment map of how toxic dust evaporated from the Salton Sea affects surrounding counties in order to help raise awareness and support the restoration process for the sea. Lawrence joined JE Compliance Services in January, 2020 and specialized in air quality reporting, permitting, and inspections. Since then, Lawrence has developed experience in many other areas such as fire code, business emergency plans, and toxics reporting.
