- ✓ *Storage tank compliance.*
- ✓ *Tier II and TRI reporting*
- ✓ *NPDES permitting and management*
- ✓ *Air permit compliance – major and minor sources*

PROFESSIONAL OVERVIEW

Mr. Bob Kuklantz has 30 years of professional experience in multiple disciplines of environmental management in industry including 17 years in printing and packaging and 3 years in chemical specialties manufacturing. This includes all phases of industrial environmental management. He has worked in numerous states and Ontario, Canada.

In his role in the printing and packaging industry, Mr. Kuklantz was instrumental in the significant reduction of VOCs corporate-wide through the conversion to water-based printing inks, reduction or elimination of VOC containing cleaning solvents, improved management processes and procedures, and partnerships with key suppliers. These efforts helped to result in Mr. Kuklantz's employer being awarded the PADEP Southeast Regional Office's first Community Environmental Excellence Award and a Governor's Award for Environmental Excellence.

In his consulting role at ALL4, Mr. Kuklantz has managed multiple large and complex new source review (NSR) air permitting strategy and application projects in several states. Several examples include the permitting of multiple combustion turbines in an ozone non-attainment area, permitting of numerous boilers and industrial processes, permitting of facility-wide modifications at petroleum refineries, and numerous projects in the printing industry. Mr. Kuklantz also extensive rule compliance and applicability experience including NESHAP's and NSPS. This experience spans a wide range of industries including pharmaceutical, refining and consumer products manufacturing.

Mr. Kuklantz also has extensive multimedia experience, including complex NPDES permitting, stormwater permitting, wastewater discharge sampling and permitting, and waste management.

Throughout all of his professional experience, Mr. Kuklantz has demonstrated his ability to recognize and implement innovative processes and procedures for the wide range of compliance issues facing industry.
