---

### PROFESSIONAL OVERVIEW

Ms. Christina Lynch is a Managing Consultant with experience in air quality consulting, including permitting and ongoing compliance. She has prepared and managed the development of state construction permit applications, New Source Review (NSR) applications, Title V permit applications, emissions inventories and annual emissions statements, greenhouse gas (GHG) reporting, and annual and semi-annual compliance reporting. In addition, Ms. Lynch has also developed and managed Spill Prevention, Control, and Countermeasure (SPCC) Plans and Non-Hazardous Secondary Materials (NHSM) Non-Waste Determinations.

Ms. Lynch has participated on a number of project teams, dealing with industries including lead-acid battery manufacturing, food processing industries, sterilization, pulp and paper mills, cement manufacturing, landfill and waste management sites, and power generation, as well as several different states including Pennsylvania, New York, Florida, California, New Jersey, Ohio, Wisconsin, Missouri, Texas, California, and Iowa.
