- ✓ *Storage tank compliance.*
- ✓ *Tier II and TRI reporting*
- ✓ *NPDES permitting and management*
- ✓ *Air permit compliance – major and minor sources*

#### PROFESSIONAL OVERVIEW

Mr. Jonathan Call has 20 years of professional experience in multiple disciplines of environmental management in industry including 5 years in the secondary aluminum processing and rolling industry and 5 years in chemical specialties manufacturing. This includes all phases of industrial environmental management. He has worked multimedia projects in numerous states including: Alabama, Alaska, Florida, Georgia, Hawaii, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Oklahoma, Oregon, Tennessee and Utah.

In his role in the secondary aluminum industry, Mr. Call was instrumental in the significant reduction of the facility's landfill disposal footprint through the balancing of the baghouse lime injection rates, improved site management processes and procedures, and the development of relationships with key partners. These efforts helped to result in lower operating costs and to receive corporate recognition for sustainability from his employer.

In his consulting role at ALL4, Mr. Call has managed multiple large and complex site review and application projects for solid waste handling facilities in several states. Mr. Call has also led efforts on several large Major Source Title V Operating Permits. This experience spans a wide range of industries including secondary aluminum, refining, synthetic graphite and consumer products manufacturing.

Mr. Call also has extensive multimedia experience, including complex NPDES permitting, stormwater permitting, wastewater discharge sampling and permitting, and waste management.

Throughout all of his professional experience, Mr. Call has demonstrated his ability to recognize and implement innovative processes and procedures for the wide range of compliance issues facing industry.
