PROFESSIONAL OVERVIEW

Scott Kirkpatrick has more than 30 years of diverse environmental health and safety experience in various industries and fields with an emphasis on air quality issues in the pulp and paper industry. He has extensive experience in air quality, water quality, solid waste permitting and health and safety programs with primary responsibilities being multi-media regulatory compliance at a large manufacturing facility. He has been focused on EH&S program development, implementation, training, auditing, and reporting in an effective and cost sensitive manner.

Mr. Kirkpatrick has led corporate best practice teams, auditing teams, and was a key member of the regulatory review team. He has a proven record of identifying best in class programs and translating them across functional areas. He can bring together key individuals across diverse responsibilities to solve complex problems and implement effective solutions. He is well versed in agency interactions, negotiations, and inspections. He incorporates a proactive approach towards environmental compliance results by building positive relationships with facilities, regulators, and industry peers.
