

FOREST PRODUCTS

**STRATEGY WITH SOLUTION.
PARTNERSHIP WITH A PURPOSE.**

WHY ALL4

ALL4 has proudly served the forest products industry since our founding nearly 25 years ago. This sector remains a cornerstone of our client base, thanks to our deep understanding of the environmental regulatory and compliance challenges forest products facilities face and our ability to deliver high-quality, strategic solutions.

From sawmills to pulp and paper mills, our team has supported operations across the country with tailored environmental strategies and strong regulatory engagement. Our long-standing relationships with both industry stakeholders and regulatory agencies are a testament to the value and reliability we bring.

A SAMPLING OF OUR EXPERIENCE

ALL4 provides full-service air quality, and environmental, health, and safety consulting support for the forest products industry, including:

Permitting & Strategy

- Major and minor New Source Review (NSR) permitting
- Permit planning to avoid Prevention of Significant Deterioration (PSD) review
- Title V permitting and negotiation
- Air dispersion modeling for compliance with NAAQS and state toxics requirements
- Evaluation of capital projects for permit exemptions
- Documentation of insignificant activities
- Alternate compliance strategies
- Stormwater and Wastewater NPDES permitting

Compliance & Reporting

- TSCA reporting
- Development and implementation of Title V compliance tracking systems
- Routine semi-annual and annual reporting (TRI, MACT, Title V)
- PSM and RMP
- Compliance plans for MACT standards
- Support for reclassification from major to area HAP source status
- Regulatory implementation
- CERCLA/ EPCRA/ RCRA reporting
- Stormwater and Wastewater NPDES compliance

Technical Analysis & Strategic Support

- Air pollution control technology assessments
- State and federal regulatory analysis and interpretation
- Evaluation of regulatory changes on mill operations
- Information Collection Request (ICR) survey support
- Waste disposal and recycling options
- Spill prevention and stormwater management contingency plan support
- Health and safety program support
- Digital environmental management solutions
- Customized training programs
- Onsite support

PARTNER WITH ALL4

ALL4 is committed to helping forest products companies navigate environmental complexities, stay ahead of regulatory changes, and operate sustainably.

PARTNERING WITH INDUSTRY LEADING ORGANIZATIONS

NCASI

ALL4 is a sustaining member of the National Council for Air and Stream Improvement (NCASI)—a respected non-profit research institute dedicated to environmental topics in the forest products sector. Our team serves on both the Northern and Southern Regional Environmental Committees, where we contribute to continuing education efforts through technical presentations, case studies, webinars, and Q&A sessions with regulatory and industry professionals.

American Wood Council and American Forest & Paper Association

ALL4 provides ongoing technical assistance to the American Wood Council (AWC) and the American Forest & Paper Association (AF&PA), helping shape the regulatory landscape for forest products manufacturers. Our support includes:

- Reviewing U.S. EPA work products
- Preparing technical white papers
- Developing outreach and educational materials
- Summarizing regulatory changes and evaluating cost impacts
- Drafting technical comments on proposed regulations

Recent wood products efforts focused on revisions to the PCWP MACT, including the development of suggested work practice standards for currently unregulated sources. Our recent work supporting pulp and paper has focused on narrowing the scope of U.S. EPA's information collection to inform MACT gap filling efforts. Our team remains at the forefront of air regulatory activity affecting the forest products sector.

AMERICAN WOOD COUNCIL

**American
Forest & Paper
Association**

ALL4 is proud to publish a quarterly newsletter specifically for the Forest Products Industry. Our digital newsletter provides the latest industry news, key regulatory deadlines, upcoming events, expert insights, and valuable resources to keep you ahead.
